PLANNING DIVISION

Trudy Ryan, Planning Officer
City of Sunnyvale
456 West Olive Avenue
Sunnyvale, CA 94086

Dear Ms. Ryan:

I am writing in response to your letter of October 12 which you state is reflective of my October 5 letter. I continue to be disappointed in the response by the city. Your letter continues to perpetuate falsehoods (yet simple to disprove) and fails to respond to the majority of the questions I raised in my October 5 letter. I must question, why? Why is information not being presented accurately? Why are my questions being ignored? Why must I resort to the CA PRA to obtain information from your department and even after multiple requests, information is withheld? Why was the information presented at the Planning Hearing not accurate or verified prior to the hearing? Why has my attempts to meet with Ms. Chan and yourself not been accommodated? Why am I not receiving equitable treatment?

Your letter states, "As stated previously, two notices were sent to your address. One was sent to Richard Falcone et al, which is the listed owner in our records." (emphasis added) This is false. The letter was not addressed to Richard Falcone et al., intending to include others. It was sent to Mr. Falcone, singularly. This is documented in your own address labels that were provided in October in response to my multiple CA PRA requests. Even in my earlier conversations with Ms. Odell, she stated the letter was sent to Richard Falcone. Not Richard Falcone et al. Not me. (See my letter of October 5) Why is it necessary to distort the truth in order to support your position? This seems to be a pattern.

Please also understand, that if I am not getting the truth on minor issues, why should I believe I am getting the truth on larger issues?

With regard to your reiteration on the other noticing steps, again, my community does not receive the City's official newspaper. No letter to Resident was ever received. The site was not posted properly. Although staff was in contact with me by phone, my request to know the specifics of the meeting was not honored. As I mentioned in my earlier letter, even my written request to you went ignored.

Your letter references the municipal code as the source of the notification process. Would you please send me a copy of the appropriate section.

As I stated above, there are many questions and concerns that I raised in my October 5 letter. Some of these questions were repeats of questions that went unanswered from my July 22 letter. I have attached a copy of my October 5 letter in which I have highlighted in bold type, the questions and concerns that I feel are outstanding. I would appreciate your addressing them.

With regard to the Planning Commission Hearing, I am still awaiting responses to my requests and concerns. I appreciate your statement that "staff has a responsibility to resolve this issue in a timely manner." Hopefully, I will be able to get a timely response. Once I have received the information I have requested, I will be glad to work with you to schedule a mutually convenient hearing date. However, as I am sure you understand, November 8th is not acceptable since we have not reached that point yet.

Sincerely,

Kathey Fyke

897 Rattan Terrace

October 5, 2004
Second Request - 10/30/04

Trudy Ryan, Planning Officer
City of Sunnyvale
456 West Olive Avenue
Sunnyvale, CA 94086

Dear Ms. Ryan:

I am writing in response to your letter of September 3. I believe some of the information you provided is in error.

Regarding the height of the fence, it is my belief that the fence is significantly greater than 7 feet. When Bob Staley originally measured the fence with me, it was greater than 7 feet. When I recently measured the fence and took photos, it was still greater than 7 feet.

I specifically asked Ms. Odell if I could be present for the re-measure and was told no. Thereafter, the City Manager stated that I could be present. In addition I dropped my letter off for you at your office on July 22, asking when it was scheduled. This was a full week before the fence was remeasured, plenty of time to contact me.

The question must be asked, Why? Why was I not permitted to attend the re-measure? There was plenty of time to notify me. I could easily view the measurement from my property. The City Manager said I could be present. In light of the difference in measurements, it would have made sense for the complaining party to witness "your" measurement. Most importantly, I had a right to participate in an unbiased and open measurement. Please help me understand what was the motivation to not allow me to participate: Why?

Regarding the measurement, I request specific information regarding the methodology. Where exactly was the fence measured at its highest point? What exactly was the measurement? Was a photo taken to document the height? Was the measurement taken on the east or west elevation of the fence? Who took the measurement? What are the City's parameters for measuring a fence and where are they documented?

Your letter goes on to state that there are three methods for notifying the public

and adjoining neighbors regarding a hearing? It reads, "all 3 of these methods were used." This is not true. Item 2 lists "Sending notices to both residents and property owners of adjoining properties." I, as a property owner, was never sent a notice.

I spoke with Diana Odell, who confirmed that I was not sent a notice. The notice was addressed to a Rich Falcone. **When I pursued this with Ms. Odell, she emphatically told me I was not on the county records. I think I know better than Ms. Odell whether I have held title to my property for the last twenty years. I also checked with the County and they confirm I am in their records. You are welcome to check as well.**

According to Ms. Odell, the "second" notice was sent to "resident". Strangely, I never received any notice addressed to Resident. Regarding the Sunnyvale Sun posting, the Sun is not delivered to my complex. Regarding the posting of the notice at the property, this was not posted within the prescribed time frame.

Despite your "redundancies", I did not receive adequate notice. **Instead of relying on your redundancies, why was I not simply sent a notice in my name to my address. I would have hoped it was policy that the party initiating a complaint was specifically sent a notice of hearing. Even more disappointing is that I asked you directly in my letter of July 22 for specifics on the hearing and you never bothered to respond.**

Paragraph 7 of my letter asked questions that you did not address

- **What is the notification process for the party that initiates a complaint?**
- **What rules/ordinance governs the process?**
- **How much advanced notice is required?**
- **Who is responsible for notifying me?**

I would still appreciate a response.

Your letter states, "The agenda had a typo which described the site as 7,920 sq. ft. This was incorrect and the correct information was included in the staff report." What is the corrected "typo"? Where specifically is it corrected in the staff report? If in fact this was corrected, why do the hearing minutes still state the erroneous 7,920 sq. ft.? In the very first sentence!

Finally, a month and a half to respond to a citizen's letter especially when some of the concerns are time critical is unacceptable. **Would you disagree?**

On another matter, on September 13, Richard Gutierrez wrote back to me regarding questions I had asked him about the type of permit that Ms. Barouh was applying for. He responded that my questions would be most appropriately answered by Planning. Therefore, let me pose my questions to you.

There was a reference that Ms. Barouh needs to apply for a Miscellaneous Plan Permit. Is Barouh applying for a MPP or a use permit? **Can you explain the difference? What are the applications and requirements of each?**

Sincerely,

Kathey Fyke

Re: Appeal on Planning Project #2004-0477 – 893 Rattan Terrace
VIA CERTIFIED MAIL

Dear Ms. Fyke:

This is to follow up the message Alice Gamboa-Navas left to someone at your house early this week regarding the scheduling of the public hearing of your appeal on the above subject.

The public hearing for your appeal on Project Number 2004-0477 located at 893 Rattan Terrace is scheduled for the Planning Commission Public Hearing of November 8, 2004. It is required that a final decision is made on this application. If you are unable to make this public hearing, you may send a letter prior to this date so we may include them at the public hearing for the record.

If you have any questions, you may contact the Project Planner, Diana O'Dell at 408 730-7452 or me at 408/730-7435.

Sincerely,

Trudi Ryan
Planning Officer

**RE: PUBLIC RECORDS ACT REQUEST PERTAINING TO 893 RATTAN
TERRACE**

Dear Kathey:

I am responding to your letter of October 5, 2004, which we received on October 8.

In Paragraph four, you expressed concern and asked about the process of documenting phone conversations, meetings, actions, site visits, etc. As stated in my letter of September 16, the Planning office does not document phone conversations, meetings, actions, site visits, etc. as its standard practice due to its high volume of activity.

In Paragraph five, you requested information as to what files were searched for your request. In Planning, the application and correspondence files on 893 Rattan Terrace were searched. Additionally, Planning staff searched for any correspondence with you that was not contained in the 893 Rattan Terrace file. As stated in my letter of September 16, this correspondence file is currently available for your review. In Neighborhood Preservation, this information was provided to you by Richard Gutierrez in his letter dated July 16, 2004.

In Paragraph six, you stated that you are aware of an item that has not been previously provided and you are choosing not to specifically disclose this information at this time. Please be aware that Government Code section 6253.1 contemplates that a requester of records works with the public agency to provide additional clarifying information.

At this point, we have provided you with copies of records we have in our possession based on information you have provided us in your letters. If you need further assistance regarding your records request for 893 Rattan Terrace, it would be helpful if you could provide us with specific details about the record(s) you are searching for, including the record you referenced in your letter of

Ms. Kathey Fyke
897 Rattan Terrace
Sunnyvale, CA 94086

Subject: Response to Letter Dated October 5, 2004

Dear Ms. Fyke:

This correspondence responds generally to questions and concerns raised in your letter dated October 5, 2004 regarding the fence at 893 Rattan Terrace.

In a previous letter of September 3, 2004, staff described what occurred with the re-measuring of the fence and the determination of height. I cannot speak to what Bob Staley said or didn't say, but based on his notes in our database, applicant information, and staff measurement the height of the fence is 7 ft. as measured from the highest adjoining grade (Sunnyvale Municipal Code section 19.48.020(a)(3)).

In regards to noticing, the steps taken were described in the letter of September 3, 2004. As stated previously, two notices were sent to your address. One was sent to Richard Falcone et Al, which is the listed owner in our records. We receive this information from the County of Santa Clara. Another letter was sent to Current Resident at your address. Neither letter was returned by the post office for insufficient or inaccurate resident or address data. In addition, the site was posted and a legal ad was placed in the City's official newspaper, and staff was in contact by phone with you. You attended the public hearing. Sunnyvale Municipal Code section 19.98.040 lays out the legal notification requirements for planning applications.

The process Ms. Barouh is going through is a Use Permit process. Typically, fences which are 7 ft. or less in height in the side yard may be

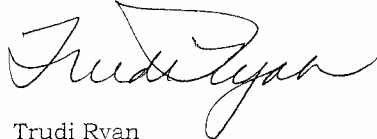

**ADDRESS ALL MAIL TO: P.O. BOX 3707 SUNNYVALE, CALIFORNIA 94088-3707
TDD (408) 730-7501**

♻️ Printed on Recycled Paper

processed with a Miscellaneous Plan Permit (staff-level permit) provided a signed agreement is provided from all adjoining property owners. Since that agreement was not procured, a Use Permit process is required.

Lastly, with regards to the change in property ownership, if the new property owner does not wish to pursue the Use Permit application, they have the ability to submit a letter withdrawing the application or remove the fence. Until that time, staff has a responsibility to resolve this issue in a timely manner. The appeal can be scheduled for a Planning Commission Hearing date of November 8, 2004. We will be contacting you to finalize the date of the hearing.

Sincerely,

Re: **Response to letter dated October 5, 2004**

Dear Ms. Fyke:

This letter responds to several questions you raised in a letter I received from you on October 8, 2004, related to fence permits.

You have asked "what is the policy regarding a fence permit that is in the appeal stage and there has been a change of ownership?" A use permit (which is the type of fence permit issued to your neighbor) attaches to the property, not to the specific owner. Therefore, the fact that property changes ownership during an appeal does not necessarily affect the permit or the appeal. If the new property owner wishes to withdraw the use permit application he or she may do so. In that case, the permit application would be withdrawn, and the appeal would thereby be rendered moot. The new owner would then be required to make sure any fence complied with City code requirements, in addition to any private requirements which may be imposed by the Homeowner's Association.

If the new owner has no interest in pursuing the permit and is willing to remove the fence, he or she may do so. If the new owner wants to maintain the fence at a height which requires a permit, the appeal should proceed for consideration.

If the permit application is not withdrawn and the planning commission denies the appeal and grants the permit, then the new owner may build or maintain the fence in accord with the permit conditions. If the planning commission grants the appeal and denies the fence permit application, then the new owner will have to modify the fence to conform with City codes. A use permit shall become null and void if the permit has not been exercised within two years from the date it was approved by the final approving authority.

I hope this addresses your questions. Please feel free to contact me if you need further explanation.

Sincerely,

Joan A. Borger
Senior Assistant City Attorney

CITY ATTORNEY

Dear Ms. Borger:

I have an issue regarding fence permits with which I would appreciate your feedback. What is the policy regarding a fence permit that is in the appeal stage and there has been a change of ownership? For example, the party that originally build the fence without a permit and then applied for a permit is no longer the property owner. The new owner has no interest in pursuing the permit and will respect the Homeowner Association's rules limiting fences to 6 feet. What happens?

I would appreciate whatever guidance you can provide. I can be reached at 408 730 5166. Thank you.

Sincerely,

RE: PUBLIC RECORDS ACT REQUEST PERTAINING TO 893 RATTAN TERRACE

Dear Kathey:

I am responding to your letter of September 3, 2004, which we received on September 9 regarding your previous Public Records Act requests pertaining to 893 Rattan Terrace.

Thank you for clarifying your request. Your request was forwarded to the Community Development Department. Below are responsive records from the Planning office:

- Application from Lidia Barouh dated 6/10/04
- Administrative Hearing minutes dated 7/28/04
- Administrative Hearing report and 6 attachments dated 7/28/04
- E mail communication from various individuals
- Public Notice and mailing labels
- Proposal and Contract #004497

In addition to the records above, the Planning office has a file containing records of your letters and the City's responses. If you would also like to get copies of these letters, please let me know. The Planning Office does not document phone conversations, meetings, actions, site visits, etc. The Neighborhood Preservation Office does as a matter of procedure.

Finally, in your letter you updated your request for all subsequent records from the date of your initial request through September 3, 2004. Below are the responsive records from the Neighborhood Preservation office. There are no subsequent records from Planning:

- Logs from the Complaint Module dated July 12, 16, 19, 27 and 28

ADDRESS ALL MAIL TO: P.O. BOX 3707 SUNNYVALE, CALIFORNIA 94088-3707

Sunnyvale, CA 94086

Subject: Response to Letter Dated July 22, 2004

Dear Ms. Fyke:

This correspondence is offered on behalf of the City Manager in response to questions and concerns raised in your letter dated July 22, 2004 regarding the fence at 893 Rattan Terrace.

Based on your concerns about the height of the fence, staff made an appointment with your neighbor to re-measure the fence. We apologize that we didn't notify you of the time of the measurement. We are confident in the accuracy. As indicated in the Neighborhood Preservation database, the application information, and staff re-measurement, the fence is not higher than 7 ft. from the highest adjoining grade.

We have three methods of notifying the public and adjoining neighbors regarding items going to Administrative Hearing.

1. Posting notice in the *Sunnyvale Sun*
2. Sending notices to both residents and property owners of adjoining properties
3. Posting the affected property with "Notice" sign with a copy of the notice attached.

All three of these methods were used, and our records indicate that two notices were sent to your address. In addition, the red "Notice" sign with application and hearing information was posted in front of 893 Rattan Terrace on July 16, 2004. Staff notes that this sign was still in place two days before the hearing on July 28, 2004. These "redundancies" of

ADDRESS ALL MAIL TO: P.O. BOX 3707 SUNNYVALE, CALIFORNIA 94088-3707
TDD (408) 730-7501

♻️ Printed on Recycled Paper

multiple notices and posting of the site are done to ensure that interested neighbors will be informed of the hearing by one or more of the methods.

The agenda had a typo which described the site as 7,920 sq. ft. This was incorrect, and the correct information was included in the staff report. We apologize for any confusion that might have caused.

Staff appreciates your suggestions for improvement and will evaluate the feasibility of the suggestions. The City Manager's office will be contacting you to arrange a follow-up meeting with the City Manager and me.

Sincerely,

COMMUNITY DEV.

Susan Ramos, City Clerk
City of Sunnyvale
603 All American Way
Sunnyvale, CA 94088

Dear Susan:

I am writing in response to your letter of August 10th. Thank you for letting me know about the delay in delivery time. I have contacted the Post Office about the problem.

With regard to my July 27 letter, I believe my request for documents was not fully complied with by the department identified. With all due respect, I feel my initial request for documents was made in an identifiable manner. Moreover, CA PRA requires the agency to provide assistance by helping to identify records and information relevant to the request and suggesting ways to overcome any practical basis for denying access. (§ 6253.1)

As an general example, Richard Guttierrez of Neighborhood Preservation provided his records off the system (Sun modules and Novel Groupwise). These were identifiable from my initial request. In contrast, there are no records from Planning (O'dell, Bell, Caruso, Trudy, etc.). If Planning does not document phone conversations, meetings, actions, site visits, etc., please have them let me know.

As a more specific example, Ms. Barouh submitted an application to Planning for the disputed fence on June 11, 2004. This would fall clearly within the records I identified and requested. Neighborhood Preservation provided their note that the application was turned in. In contrast, I was not provided a copy of the application nor was I provided any justification for the withholding of such record from Planning.

Your letter relays that the "records... provided... included all records and documents regarding your complaints against your neighbor at 893 Rattan Terrace, including records from the Planning Office." I would conclude that it is the organization's claim that the additional records do not exist. I would request to be informed as to what files were searched.

Please let this serve as my fourth request to Community Development/Planning for all the documents responsive to my request. At this point, I would also like to update my request for all subsequent records from the date of my initial request through September 3, 2004.

Please let me know what the cost will be for the additional documents.
Thanks again for all you help.

Sincerely,

Kathey Fyke

Dear Susan Ramos:

Thank you for taking the time in speaking with me on Friday. I appreciate the information and direction that you provided.

As I mentioned, I had attempted to informally obtain the information regarding my complaint directly from the Department of Community Development, but I was denied. Therefore, I am formally writing to you to request the information under CA PRA, the Public Records Act.

Please provide all records and documents, including electronic ones, regarding my complaints against my neighbor, Lydia Barouh of 893 Rattan Terrace, including but not limited to the fence she built without a permit.

Please let me know what costs will be involved. I would also appreciate knowing what files were searched in obtaining the above records.

Thanks again for all your help. If you have any questions or need additional information, please give me a call at 730 5166.

Sincerely,

Kathey Fyke

897 Rattan Terrace

September 3, 2004

Richard Gutierrez, Neighborhood Preservation Specialist
City of Sunnyvale
46 West Olive Avenue
Sunnyvale, CA 94088

Dear Richard Gutierrez:

I am writing in response to your letter of July 16th that was postmarked on July 23rd. My apologies for the delay, I was on vacation for August.

You seem to have taken exception to a statement I made in my July 10 letter to Susan Ramos; "As I mentioned, I had attempted to informally obtain the information regarding my complaint directly from the Department of Community Development, but I was denied." I believe you might have misinterpreted my statement.

My statement referred to the actions of Ms. O'Dell. I had asked her for documents and to participate in a re-measuring of the fence to which she denied both. It is my understanding that Ms. O'Dell works in Planning, a function of Community Development. (Please correct me if my understanding is in error.)

My letter of July 22nd to Trudy Ryan reiterates that my concern was directed towards Ms. O'Dell. As the applicable paragraph of my letter reads:

"I believe if a party to the complaint requests copies of the notification/compliance letter and other documents from the department, they should be accommodated and provided. Especially if they are the party initiating the complaint. The documents are available under the Public Relations Act, but why make it more difficult. Moreover, I feel the department should disclose to parties that obtaining the documents under CAPRA is an option. In my case, I asked Ms. O'Dell for copies of some documents and she refused."

I chose not to mention any specific names in my letter to Ms. Ramos, since I had already shared the name, Ms. O'Dell, with her in an earlier telephone conversation that day.

Please recognize that my letter never specified you or the Neighborhood Preservation group. Nor was it my intention to criticize you or your group. As your letter states, "If I had received a request from you, I would have provided the information to you." I have no reason to doubt that.

However, the documents that I wanted were in Planning and that's where the problem lied. Ms. O'dell refused.

I do have some questions about the documents that you provided and I would appreciate your assistance.

1. Your June 2 letter to Ms. Barouh references that she needs to apply for a Miscellaneous Plan Permit. Is Barouh applying for a MPP or a use permit? Can you explain the difference? What are the applications and requirements of each?
2. With regard to the green screen printouts, I wanted to make sure I understood what they were showing.
 - A. What is the difference between schedule date and inspection date?
 - B. What is inspection type SI ? OT?
3. Your notes of 7/8 mention that you would go out with Diana to re-measure. Did this ever happen? If so when?
4. Your notes of 5/24 mention that you spoke with a Steve L. Who is this and what department?

Thanks in advance for your assistance with my questions.

Sincerely,

Kathey Fyke

Sunnyvale, CA 94086

Dear Alice Gamboa:

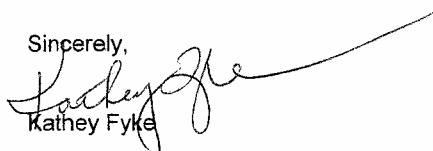

Thank you for your calls to schedule the appeal regarding File 2004-0477, the fence permit for 893 Rattan Terrace.

However, at this point, I am still awaiting feedback from the city. Specifically, I am awaiting responses from Amy Chan and Trudy Ryan, from over six weeks ago. In addition, I requested a copy of the hearing record back in July on the date of the hearing. I have not heard back on that item.

Hopefully, I will soon hear from these parties. Once I do, I will be sure to contact you to see what dates are most convenient for you.

Thank you for your time and assistance.

Sincerely,

Kathey Fyke

July 26, 2004

Amy Chan, City Manager
City of Sunnyvale
456 West Olive Avenue
Sunnyvale, CA 94088

Dear Ms. Chan:

Thank you for your letter of July 19, 2004 which I received on July 22. I believe your suggestion to document our conversation in a letter to minimize miscommunication was a good one.

Caselaw

With regard to the matter of the caselaw and what defines a fence, I have spoken briefly with Ms. Borger. She indicated that there might have been some miscommunication between Mr. Bell and herself, since her perception of what my concern was and what I voiced in meeting with her were different. She has indicated that I am welcome to come back and further discuss the matter in more detail. My intentions are to do so in the future.

I have also included a copy of my July 10 response to the Fred Bell letter of June 16 that you referenced. As it indicates, Mr. Bell never shared any feedback from the Office of the City Attorney with me.

Tree Removal Permit

On the issue of the tree removal permit, you write that you consider the matter closed. You reviewed the permit and concur that the request was accurate. I had asked for the opportunity to review the supporting documentation. As I indicated at our meeting, I have photographs, video and tape recordings that support that the application was based on misrepresentation. In addition, there are witnesses and financial records that will support the same claim. Plus I have statements from a city employee that the tree was not a hazard.

When a determination is so simple as to just look of a photo of where the alleged concrete repairs were required and not to see any concrete repairs; I cannot understand why the accuracy of the application would be confirmed, let alone not even questioned. What makes the matter even more ludicrous is that not even are there no concrete repairs in the specified area, there is not even any concrete. The area is asphalt.

I believe that my documentation and evidence deserved to be looked at and taken into consideration, before a decision that the matter is closed was made. Why wasn't there even a willingness to look at the documentation? I ask that you reconsider your decision.

City Maintaining Files on All Complaints...

I believe this item might encompass two concerns that I expressed.

Include
The first was a suggestion that when a party lodges a complaint, some form of written feedback is provided to them. This way a party could confirm that the specifics of what they are complaining about have been successfully translated. If there is some miscommunication, the paperwork allows it to be caught and corrected early on. In my instance, such feedback would have eliminated the problem of learning that the 7 foot plus issue was not incorporated into my complaint.

The second concern was that if a party requests documents directly from a department, it should be accommodated without making the party avail themselves of the Public Records Act. Also, the PRA should be offered as an option to parties seeking records. My request for documents was denied by Ms. O'dell and she never raised the PRA option.

On the matter of my request to the City Clerk for records under the CA PRA, I received the package today. However, it is my perception that the records are not complete. I will be writing to the Clerk to address my concern.

*concern
didn't
get
all info*

Numbered Items

1. My complaint was that the fence was greater than 7 feet in height.
2. My concern was misunderstood. Let me explain. When I asked about a continuance, I was told that I could write a letter requesting one. However, the decision to continue the item would be made by the Hearing Officer but not until at the meeting.

I feel this approach is taking a big gamble, If your continuance is not granted, then you are not present at the meeting to state your case. So to be safe, you need to be at the meeting one way or another. I was suggesting a procedure be researched that would allow continuances for good cause be granted prior to the meeting.

Contrary to your statement, I was never notified that staff would contact the owner.

3. I am surprised by Bob's measurements. I know when he measured with me, he came up with greater dimensions. Thus, the request for the re-measure.

*more
process*

4. Your letter states that staff indicated that I could observe the re-measuring process on my side of the fence. This is not accurate. I was told I could not observe. Although when I spoke with the City Clerk, she stated that she didn't see why I couldn't, she had no authority to let me. In contrast, when I asked Ms. O'dell if I could observe, she clearly stated no. Ms. O'dell's NO is the reason why I escalated the request to the City Clerk and then to you. Even Mr. Gutierrez's own notes do not support the contention that I could observe. He writes, "She (Kathey) asked if she could be there when we take measurements and I informed her that it would be better if she was not."

Furthermore, if I can observe, why have I not been told a time and date to be there, let alone called to find a mutually convenient time as you and I discussed. I even wrote to Trudy Ryan on July 22 asking her to let me know if there was a re-measurement scheduled. I have not heard anything.

I never requested to go on my neighbors property. My intent was always to observe from my side.

As the above indicates, I feel there are still open issues. I look forward to meeting with you to reach a resolution.

Sincerely,

Kathey Fyke

Fred Bell
Planning Department
456 West Olive Avenue
Sunnyvale, CA 94088

Dear Fred Bell:

I am in receipt of your letter dated June 16, 2004. I find it of concern that your perception of the facts does not reflect what actually transpired.

Let me first address the issue of the caselaw. You are correct in that we had an initial, brief telephone discussion on the appellate case and trees as fences several weeks earlier. I was the one that brought up the issue. You were unfamiliar with it and had me spell out the name of the case for you. It was at this point that you suggested I come in and meet with you some time in the future. That was the full extent of any conversation on the appellate case until I called you on June 8th to set up the Thursday meeting.

Your letter states, "As I had noted then, my discussion with the Office of the City Attorney clarified that the Wilson v. Handley decision might relate to a civil action between you and your neighbor, but that it had no legal bearing on the City's Municipal Code." Your sentence seems to imply that prior to our meeting you shared some discussions you had with the Office of the City Attorney. If this is your implication, your statement is erroneous. You never shared any such information with me.

First, as your letter recognizes, there was only the one phone call, one brief discussion on the matter.

Second, during this call, I introduced the case to you, you knew nothing about it, so there would have been no prior discussion with the Office of the City Attorney at this point.

Third, during the call you never mentioned anything about the decision being limited to a civil matter. Just that you would look into it and that we should meet in the future.

Fourth, if in fact you had told me it was limited to a civil matter, I would have simply countered that if the city's fence ordinance regulates fence

heights, it can't discriminate between types of fences, either a wood fence or a fence of trees. That discussion never took place.

Fifth, if you had shared some subsequent discussion with me, why would I have wasted my time coming in to speak with you instead of proceeding to speak with someone in the City Attorney's Office. As your letter indicates, at our June 10 meeting you offered to have me meet with a representative of the Office of the City Attorney. Surely, if there had been this second prior discussion on the caselaw, you would have made a comparable offer at that time. But your letter makes no mention of an earlier offer. That's because there was no earlier offer and there was no second discussion.

Bottomline: After I raised the question on the appellate case, you and I had no subsequent discussion on it and you never shared any feedback from the Office of the City Attorney prior to our June 10th meeting. That is the reason I took you up on your prior invitation to come in and meet with you about it. Furthermore, I specified that the appellate case was what I wanted to speak to you about when I made the appointment. Contrary to your letter, the issue was never addressed.

Your letter indicates that it was your impression that I scheduled the meeting to discuss a recent letter I had received from my neighbor. No, as I mentioned at the time I scheduled the meeting, it was to discuss the appellate case. Please reflect, you had previously invited me to come in to discuss that specific matter. Yes, you and I had several conversations regarding the height of my neighbor's un-permitted fence. But they were always handled on the telephone. There would have been no need to take the time and come in for a formal meeting on that situation.

Your letter continues that your impression was reinforced "when our meeting began with your announcement that the neighbor had also called to talk." My perspective differs. I do not feel I made any announcement, but rather answered your direct question. As we walked from the front lobby area to your office, in the manner of small talk, you asked me how things were going with my neighbor. I answered that I had received a call from her, made a comment and then expressed that it was something we need not be bothered with today. This entire brief conversation occurred before we ever entered your office. It occurred before we ever started our meeting. And most importantly you brought my neighbor up, not me.

I hope you can understand my disappointment with how my concerns are being addressed.

Sincerely,

Kathey Fyke

PLANNING DIVISION

July 22, 2004

Trudy Ryan
Planning Development
456 West Olive Avenue
Sunnyvale, CA 94088

Dear Trudy Ryan:

I have some concerns and questions with regard to my complaint about my neighbor's un-permitted fence that I would appreciate your assistance with.

Last year, I met with Bob Staley of Neighborhood Preservation at my property. As part of our discussion, he measured the fence and verified that it was greater than seven feet high. I asked Bob not to initiate any formal process, since I wished to first try and directly resolve the matter with my neighbor. I was unsuccessful.

On May 12th of this year, I again met with Bob at my property. I asked him to proceed with the complaint process. In addition, I again confirmed that the fence was greater than 7 feet.

Plus, if you recall in my conversations with you, I discussed that the fence was greater than 7 feet in height and you provided me with feedback as to how that would be addressed.

However, I recently learned from Ms. O'Dell that the complaint and permit process is not addressing the greater than 7 foot aspect and is dealing with the fence as being only seven feet tall. I was informed that Miss Barouh's (the neighbor's) permit application lists the fence as only seven feet high and that is what prevailed.

When I raised the matter with Ms. O'Dell she stated that the fence would be re-measured. I asked her if I could be present and she replied no. After her refusal, I spoke with the City Manager. The City manager stated that I could be present. She also thought an attempt to set up a mutually convenient time would be appropriate. She committed to speaking to your department about the refusal. This was on Friday, July 9th. To date, I have not heard from Community Development. Would you please let me know if there is a re-measurement scheduled or if it has already been completed without my participation. I would also appreciate knowing the results, if any.

With regard to the hearing, I was verbally informed it is July 28. However, I would appreciate being informed as to what time and where it is scheduled. What is the notification process for the party that initiates a complaint? What rules/ordinance governs the process? How much advanced notice is required? Who is responsible for notifying me?

I was informed that the project is described as a 7,920 square foot site. Would you please let me know how that measurement was derived. It seems large for the unit involved.

I would also like to offer some suggestions for improvement from a citizen's perspective.

I would find it beneficial to receive some form of paperwork in response to filing a complaint. That way a party could confirm that the specifics of what they are complaining about is successfully translated. In my case, I feel receiving some form of written feedback would have eliminated my finding out months later that the greater than seven foot issue was not incorporated into the process.

I believe if a party to the complaint requests copies of the notification/compliance letter and other documents from the department, they should be accommodated and provided. Especially if they are the party initiating the complaint. The documents are available under the Public Relations Act, but why make it more difficult. Moreover, I feel the department should disclose to parties that obtaining the documents under CAPRA is an option. In my case, I asked Ms. O'Dell for copies of some documents and she refused.

I feel the hearing notification process could be improved to assure that the complainant specifically receives a copy of the notice.

If there is a controverted issue, I believe both parties should have the right to participate in any resolution. For example, I should have been permitted to observe any re-measuring. My standing on my side of the fence and watching the process should be accommodated.

If there is a situation where the facts are disputed, I believe both parties should be consulted. For example, I was informed that since Ms. Barouh stated on her permit application that the fence was 7 feet high, that is what is being taken as fact. I believe 'my facts' should have just as much, if not more, weight than hers, especially since Miss Barouh had already actively disregarded the rules and built the fence without a permit even though she had been informed by your department that she needed a permit.

I would appreciate your help in resolving my questions and concerns. If you have any questions or need additional information, please give me a call at 730 5166. Perhaps some of my concerns do not fall within your department. If that is the case, I would appreciate being informed to whom I should address those topics.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Kathey Fyke', written in black ink.

PLANNING DIVISION

Dear Kathey:

First let me apologize for the delay in getting this letter to you. I took time to review through all of the correspondence that you have had with staff, as well as review in detail the list of questions and concerns that you raised.

At our phone conversation on Friday, July 9, I committed to memorialize in writing all of the issues that I understand you have so as to better identify resolutions to them as well as reduce risk of misunderstanding. These include comments you related to my Executive Assistant, Kathi McGraw. I have also committed to provide you with a copy of the City Attorney's response to the case law that you wanted reviewed regarding the issue of whether a row of trees constituted a fence. Also you requested that I review the tree permit issues in addition to whether we have a file on all the complaints you have filed with us.

Let me first go to the City Attorney's letter regarding the case law. In reviewing the record, I was mistaken in indicating to you that there was a letter from the City Attorney regarding that issue. What I thought I recalled was actually a letter from Fred Bell to you dated June 16 recapping his discussion with the Office of the City Attorney on the tree matter. To that end, I have discussed with the City Attorney's office, and they would welcome your direct contact with them. I believe you wanted to meet and discuss information you have with the City Attorney's office to help them better understand the situation before they render an opinion. Please feel free to contact Senior Assistant City Attorney, Joan Borger, at 730-7467 to arrange for a meeting time.

As to the tree removal permit matter, I have reviewed the permit and concur with staff's conclusion that the removal request was adequate in the amount and accuracy of information provided.

Finally regarding the City's maintaining of files on all the complaints we received, I believe we do have a record of all of your complaints on file. I also noted that our City Clerk on July 14 acknowledged receipt of your Public Records Act requesting all of the file information we have regarding your complaints against

your neighbor. I think you will find that through that process, you will be able to confirm for yourself whether our file is adequate.

As to the comments that you have made to Ms. McGraw, let me try to address each of them here as best as I understand them.

1. Your complaint regarding your neighbor's fence being seven feet. Planning staff indicated that your neighbor did file with staff a permit application and the hearing of that application is on July 28. At that time, if a permit is approved, then they will still require a building permit from the City to assure that the fence is constructed in accordance with building code requirements.
2. Regarding the request of wanting to change the public meeting on July 28. Staff informs me that they have discussed this issue with you and have indicated that you would need to send in a written letter to ask for a continuance. Once staff receives the letter, staff will notify the owner to see if we could reschedule the hearing. In absence of that concurrence, the Administrative Hearing Officer can continue the item if it appears warranted.
3. You have indicated that Bob Staley came out and measured the fence and confirmed that it was over seven feet. The Neighborhood Preservation database indicates the fence was measured at 83 inches, just short of seven feet, but still in excess of the six feet that requires a planning and building permit. As a result of Mr. Staley's measurement, staff got in touch with your neighbor and as a result your neighbor applied for a permit.
4. You requested that when staff comes out to re-measure the fence, you want to be able to observe the process. Staff indicated that you could observe the process on your side of the fence, but they will not be able to invite you onto your neighbor's side of the fence, as the City has no authority to include you on other people's property.
5. You indicated that the current owner is selling the house and it would close approximately the same time as the July 28 public hearing. Staff indicated that they would post a notice of hearing by the property to notify anyone who looked at the property that the fence currently is a nonconforming construction.

In closing, Kathey, I think these are the issues and concerns that you have identified to me. As I understand, there are three issues that still remain to be resolved to your satisfaction. The first is the seven foot fence issue, the second is the tree permit issue and finally is the interpretation of what constitutes a fence. I believe the upcoming hearing will help to resolve the existing fence issue. As to the tree permit, I consider that matter closed. As to the

interpretation of the law, I hope the meeting you have with our City Attorney's staff will provide the information you are seeking.

Again, I am sorry that your experience in these matters that I have discussed in this letter has not been to your satisfaction. We do try to provide as responsive service as we can. Clearly there is room for improvement. I thank you for your time and your suggestions in how we can better provide good customer service.

Sincerely,

A handwritten signature in black ink, appearing to read "Amy Chan", written in a cursive style.

Subject: Response to Correspondence related to meeting of June 10, 2004.

Dear Ms. Fyke;

This correspondence is offered in response to your letter received June 16, 2004 regarding your dissatisfaction with our meeting of June 10, 2004.

I regret that you left the meeting with the sense that I was unresponsive to your wish to discuss a matter of case law related to your concerns with your neighbor's fence. It was my impression that when you called to schedule the meeting that its purpose related to a recent letter that you had received from the neighbor in question. My impression for the purpose for the meeting was somewhat reinforced when our meeting began with your announcement that the neighbor had also called you to talk about the matter. Further, I was surprised that you wanted to restart a discussion on the case law matter as we had briefly discussed it on the phone a couple of weeks prior. As I had noted then, my discussion with the Office of the City Attorney clarified that the *Wilson v. Handley* decision might relate to a civil action between you and your neighbor but that it had no legal bearing on the City's Municipal Code. Since opinion on such legal matters are not within my purview, I did not want to waste your time, particularly since I thought that issue had already been addressed.

As I had offered at our June 10 meeting, if you would like to meet with a representative from the Office of the City Attorney to discuss the case law matter, I would be happy to assist. If there are other questions that you may have related to your neighbor's fence (or any other Planning related matter) please feel free to call me at (408) 730-7443.

Sincerely,

A handwritten signature in dark ink, appearing to read "Fred Bell", is written over a horizontal line.

PLANNING DIVISION

Fred Bell
Planning Department
Olive Avenue
Sunnyvale, CA

Dear Fred Bell:

As you are aware, I am extremely disappointed with how my concerns were addressed Thursday morning.

Let me review what transpired to bring about our meeting. Back in May, I was speaking via telephone with you regarding my neighbor's fences. My neighbor had built a 7 plus foot fence without a permit or neighbor agreement despite being informed by your department that she needed a permit. As part of that discussion, I asked what the department's policy was regarding rows of trees/vegetation and the fence height requirement. I mentioned the Wilson v. Handley decision, where the California Court of Appeals ruled that a row of trees constituted a fence. You were unfamiliar with the case so I shared the title and brief facts of the case. You invited me to meet with you some time in the future to discuss it further.

On Tuesday, I took you up on your suggestion and called. We set up the meeting for Thursday morning. In preparation, I obtained a copy of the appellate decision and reviewed the 18 pages, highlighting the salient points. I also brought additional research that I had done.

Imagine my disappointment in the first minutes of our meeting when after I placed the court decision on your desk, you stated my concerns were a "civil matter". Apparently this judgment had been made before I ever reached your office. You did not touch, let alone look at the research I offered.

I thought I had taken the time out of my day to meet with you so we could have a dialogue about my concerns. I believe I should have had the opportunity to discuss my points in an open setting, not one where the decision had already been made and the issue was closed. I thought I was walking into a meeting where the city would have been open to a different perspective and new case law. I don't disagree that you had the right to reach whatever decision you wished, but I firmly believe you had an obligation to at least listen to my feedback and recognize it in the decision making process. That did not happen. Instead, I

was quickly told, in essence: issue closed...civil matter... not interested.

When I pursued the matter, you informed me that I could come back and speak with a Joan in the city attorney's office.

The way my concerns were handled demonstrates that there is room in your department to be more considerate and respectful of citizens and their efforts. I would hope that you recognize that often citizens need to make arrangements to come into your offices to meet, i.e., take time off from work, hire a babysitter, rearrange a schedule. So to have someone come in needlessly is simply disrespectful. If you had already reached a decision, why didn't you just call to let me know. We had already had several conversations and you had my number. A call would have saved me valuable time and resources.

Moreover, if the next step was to meet with Joan, why not call and explain you can't help me and suggest that I call and set up an appointment directly with Joan. It would have saved me the inconvenience and frustration.

With regard to the substance of my concerns, I remain firm that the California Court system has recognized that a row of trees constitute a fence. The city has an obligation to enforce all of its ordinances equally under the law.

Bottomline, I hope you can put yourself in my shoes and understand my disappointment. There was an opportunity to learn from each other that was lost. But more importantly, a city should strive to maintain the trust of its citizens. Based on my experience, that trust was undermined.

Sincerely,

Kathey Fyke

Subject: Response to correspondence regarding Tree Removal Permit
2002-0736 located at 867, 873, 879 and 897 Rattan Terrace.

Dear Ms. Fyke;

Thank you for your correspondence received August 20, 2003 regarding Tree Removal Permit 2002-0736 located at 867, 873, 879 and 897 Rattan Terrace. As we discussed on the phone, I have revisited the background and associated facts with City staff whom have been involved in Tree Removal Permit 2002-0736. Staff believes that the application for the removal request was adequate in the amount and accuracy of the information provided. Further, staff believes that the action taken on the application was appropriate.

As we discussed, approval of a tree removal permit does not require the physical removal of the tree(s). You may wish to consult with your Home Owners Association to consider not exercising that portion of the permit that would result in the removal of the subject tree.

Should you have any further questions on this matter, please feel free to call me at (408) 730-7443.

Sincerely,

Dear Fred;

When we last spoke a couple weeks ago, you were called to a meeting and said you would call me back when you got out. I'm hoping they have let you out by now or at least you're in Tahiti, enjoying your lottery winnings. If not, I could use your help on my continuing tree problem. In addition to dealing with my specific situation, I would also like to provide some customer feedback as to how the system might be improved.

During our previous call, it dawned on my that we were working with some erroneous assumptions. So let me take a moment to reiterate what I think are the salient facts.

First, I do not think Leonard Dunn and Steve Sukke are contradicting each other. If you look at what they are saying as well as Mark Spandler, they are in consensus. The problem is not with the health of the tree or it's structure, it's the pavement albeit fictitious pavement hazards.

Application

I have included the application for your review. On 9/25/2002 Gardy Carney filled out the tree removal permit application. (My tree is the one at 897 Rattan.) Ms. Carney gives 3 and only 3 reasons on the application for removal.

- "1. Overhanging master bedroom (too close to homes)
2. Damage to foundation
3. Trip hazard (please find encl. Bill 12/31-01 \$11,276.00 repair of trip hazards due to tree roots."

Ms. Carney enclosed a copy of a \$11,276 check to Re-New Construction for the 10/24/01 concrete replacement. Ms. Carney also includes a site map locating the trees.

Let's look at the application with regard to my Euc:

Item 1. Overhanging master bedroom does not apply to my tree. On the top of the site map, Ms. Carney indicates that the "overhanging house " applies to 869 Rattan only.

Item 2. Foundation damage does not apply to my tree or to any of the other trees for that matter. When Leonard came out last October (after the permit had already been issued), he agreed there was no foundation damage. You are welcome to come out today and see there is still no foundation damage. Bottomline: there is no and never was any foundation damage due to the trees listed on the permit application or any trees. Ms. Carney represented a falsehood as a reason.

Item 3. Repaired concrete trip hazard does not apply to my tree or to any of the other trees for that matter. In speaking with you, I learned that you had the misperception that even if the \$11,276 was not spent directly with these four trees, the money had been spent on other tree trip hazards. This would make it ok and appropriate to approve the permit. However, this is not the case at all. Although the application states that the Association spent \$11,276 to repair trip hazards in the concrete due to the trees, this is another falsehood. The \$11,276 invoice had nothing to do with any trees in the complex. Previously, we had some drainage problems under a building and installed perimeter drains and sump pumps. As a result, an area of concrete drives and sidewalks settled very unevenly. This problem was compounded by the parking of extremely heavy trucks on the concrete which stressed and cracked the concrete. Bottomline: The repair bill had nothing to do with any trees and the repair work was not in the direct vicinity of the trees mentioned in the permit application. This is another falsehood that was represented by Ms. Carney to the City as a reason for removing trees.

Permit Checklist - Steve Sukke

Next, look at what the Tree Removal Permit Checklist is saying and what it is not saying. Steve Sukke is not finding that the tree is diseased or badly damaged or decayed or in decline. It says nothing about the tree itself being dangerous or questioning the health of the tree. What it does say is that the permit is being approved due to "pavement" concerns.

"Pavement" concerns that were misrepresented in the application and do not exist. Disingenuous pavement concerns that were presented by Ms. Carney as the reason for removal and falsely supported by an unrelated check. This is just wrong. The city made a decision based on misrepresentation.

Conversation with Mark Spandler

Last October 18, I spoke with Mark Spandler, who wrote the letter approving Ms. Carney's application. I reviewed my conversation with him and his comments support my position. He states, "They are healthy trees...it's just the effect they are having on the pavement." He goes on to state that he "included what they paid to have some of it fixed." (the disingenuous \$11,276 check) Mark believed that we had spent \$11,276 on tree trip hazard repairs.

Conversations with Leonard Dunn

When I met with Leonard last October, he looked for the "foundation damage"

and the "concrete repairs" worth \$11,276. He could not find any. He looked at my Euc and did not see a problem with it. Makes sense. His assessment was consistent with Steve and Mark. The problem was not with the tree, but with a perceived (though non-existent) trip hazard with the concrete. When I spoke with him this month, his opinion is the same. The tree is fine. He went on to say that even if the asphalt is raised slightly around the tree, it's not near a public walkway but at a dead end. There's no reason to take the tree down.

In Closing

Thus, it's not that Steve and Leonard are looking at the situation differently. They are seeing the same thing. The tree itself is fine. The false assertion that the trees are causing trip hazards and \$11,276 worth of damage is what is causing the difference of opinions. The question is would the tree removal have been approved if the \$11,276 check had not been presented? Mark and even you were under the impression that \$11,276 was spent on tree trip hazard repair. Take that fictitious amount out of the equation and why would a permit have been issued for my Euc tree. According to the application reasons, it doesn't overhang the bedroom nor is there any foundation damage. There are no other reason listed. The permit approval needs to be re-examined in light of the true facts.

By way of this letter, I would ask Planning to re-evaluate the tree permit, since the application information that was provided was not accurate and misrepresented the situation. Please let me know if this can be accommodated.

As a citizen, it bothers me that folks can manipulate the system. I realize that there will always be individuals that cheat. Please understand that I do not hold city personnel responsible. They are not mind readers and can only work on what information is provided (accurate or not)

But it introduces three concerns.

- First, there seems to be no process to re-address the situation/permit once the manipulation is revealed. Even is the subterfuge is uncovered, the perpetrator still gets away with it. There needs to be consequences for not being truthful.
- Second, perhaps the application can be tweaked to contain a statement that the applicant is certifying that he is telling the truth. It might make someone think twice before they misrepresent the facts.
- Third, I wish there was a checks and balance process where someone who opposed the removal of a tree can participate in the early stages of the process. As an example, with my neighbors seven foot fence, I can participate at a hearing if I oppose the fence. I would appreciate whatever can be done to make the process more "opposition and tree friendly"

Thank you for your assistance. If you have any questions, please let me know.

Sincerely,

Kathey Fyke

Subject: Tree removal request – 894 Rattan Terrace; File #2002-0736

Dear Gardy Carney:

The Department of Community Development has reviewed your application for a Tree Removal Permit for the four Eucalyptus trees located at the above referenced address and has granted approval to remove the trees. The trees represent a hazard; therefore a Tree Removal Permit has been granted for the four trees.

According to the Sunnyvale Municipal Code, Section 19.81.090, any tree removed is required to be replaced. The City requires that four 15-gallon replacement trees of any suitable species be planted where a medium sized tree can grow to maturity unimpaired. You may refer to the enclosed Water Conserving Plant list to assist you in tree selection based on growth rates, height, spread, and other factors for tree management. Please complete and mail the enclosed green postcard to let us know when the replacement tree has been planted.

If you need assistance with replacement tree selection or have questions on tree maintenance, you may consult with the City Arborist, Steve Sukke, at (408) 730-7505. If you have any questions regarding this permit, please contact me at (408) 730-7613. Thank you for your cooperation.

Sincerely,
